Benefits of Booking a Fundraiser!

Schools, Principals, Teachers, Parents & Students Benefit in the Following Ways:

BOOK NOW
BEFORE ALL DATES ARE TAKEN!

1. Family Unity

The family gets to come together for a fun activity that they participate in together. It allows Mom, Dad & kids quality time to interact in a FUN environment.

2. Fight Obesity

Students and parents participate in an activity that is not only fun but also provides great health benefits. 8-18 year olds spend 7.5 hours/day on average using entertainment media (computers, tvs, video games, smart phones, etc.). A skating event allows 2-3 hours of exercise for both parents and children and you can **Burn 600 Calories or More at one party!** When roller skating, you forget about the health benefits because you are having so much fun!

3. Social Interaction

Parents, Teachers and Children get to interact in a non-school environment together. Students have a great time when they get to interact with their teachers in a non-classroom setting. It also allows teachers to develop strong relationships with their students and parents outside the classroom.

4. Fundraising while Having Fun

Skating is a fun activity that also raises money for the school. All schools are looking to raise funds for something. This program allows schools to do it in a fun way. Selling wrapping paper or candy is not FUN for the child or the parent, but coming to the rink to skate will make great memories for all.
